—Visitors from No. 14, I. O. O. F., occupy Odd Fellows hall this evening.

—Regular weekly meeting.

—Colds are more numerous around the streets to-day than they will be in November. By that time people will be dressed for chilly weather and expecting it.

—Bert Parker, Al. Schiller, Frank Eshlin, and a number of other, talk of going into camp for a week near the four mile bridge. They expect to start soon.

—Badger Council No. 224, Royal Arcanum, assemble in regular semi-monthly meeting this evening. Lodge room in the Lappin block, East Milwaukee street.

—Mr. and Mrs. Al. Kavelago entertained the Idlewild campers at their pleasant home in the third ward last evening. To-night the same company will be received by Mrs. J. D. King.

—Eddie Leashy's injuries have affected his brain and his recovery is very improbable. The little fellow is still unconscious, having been in that condition ever since ten o'clock Monday morning.

—Henry Phizes, the five months' old son of Mrs. Nora Case, South Academy street, died at one o'clock this morning.

The funeral will be held at the house at three o'clock to-morrow afternoon, the Rev. Thomas Walker conducting the services. The bereaved mother has the sympathy of many friends in her dark hours of mourning for the loss of her little one.

—The dining car attached to the St. Paul through express which arrives in this city from Chicago at 8:15 p. m. is detached from the train and remains here, until the arrival of the south-bound St. Paul through train at 6:15 next morning. This new arrangement will give the people of Beloit an excellent opportunity to continue the acquaintance of the colored cook, who was a great favorite in the Live City.

—Said a man who knows the coal business from start to finish, "I believe this talk around town about a rise in coal is all bluff. Coal men are pushing it to help them unload a lot of coal they have on hand. Don't let anyone get anxious. I'm not going to buy a ton until I actually need it. Before long someone is going to drop in and sell coal cheaper than anybody has yet."

—T. L. Dehoney's record on the grip-lifter at Edgemoor's drug store is the best. It stands at one hundred and forty pounds. But the doughty ex-turnkey points. But the doughty ex-turnkey points. But the doughty ex-turnkey points.

—When I was on the farm," he said, "I once gripped a six foot cow-bear so hard that I squeezed out four two-ounce bottles of tincture of iron, and might have made it an even half dozen if I had tried a little."

—The Milwaukee street pavement had nothing to do with. Several young men rode out behind a steel old family horse, intending to give a moonlight serenade. They didn't explain this to the horse, though, and when he heard what seemed to be the wails of distress he started right after a doctor, and the buggy was left behind, while the boys had to get out and go home on foot.

—As next winter is likely to keep our charitable societies decidedly busy, there would be wisdom in commencing work at once. A series of entertainments, such as are given in other cities for the fresh air funds, would draw remarkably. Or there might be a ball game between east and west side business men—men that played ball twenty or thirty years ago. Several have suggested that "sweet charity" receive the proceeds of the game between the druggists and doctors. This or some similar arrangement could undoubtedly be very easily made.

—City Attorney Pierce was in Milwaukee yesterday, and having a little spare time he visited the office of the board of public works, and gained some very valuable information relating to pavements and sewers. Accordingly, he is of the opinion that if Janesville desires to profit by the experience of other cities, the Milwaukee street pavement will not be put down until the laying of the water service is completed and the trenches have had time to settle, which will not be before another season. Also that before there is any outlay of money in building sewers, the common council will first employ an engineer to prepare a complete sewerage system of the entire city, and then build accordingly. Of course this plan will cost some money, yet the experience of other cities indicate that the money would be well spent. The opinion is freely expressed that a proper sewer system would take the main lines across Milwaukee street, running south instead of east to the river, and should be the case, the laying of the pavement before the sewer is constructed would not make so much difference as it would if laid in that street.

TO BE OPENED SOON

The Public Library Now Kin-

ished—What the Library

Board Say.

Officers Elected And Com-

mittees Appointed For The En-

suing Year.

LAST NIGHT'S MEETING.

Before another week the new public

library will be thrown open for busi-

ness. It is practically finished, and would

have been opened today had Mrs. Bee,

the librarian, not been confined to the

home by sickness.

When the doors are finally swung

back there is to be a more or less

formal dedication. The date fixed upon

is likely to be next Saturday.

A meeting of the library board was

held last night to organize for the year.

The officers and committees chosen are

as follows:

President—John M. Whitcomb.

Vice President—Horace McElroy.

Secretary—Mrs. C. L. Conrad.

Librarian—Mrs. O. S. Best.

Library committee—Mrs. A. P. Love-

joy, Miss Mary Pense and Mr. Horace

McElroy.

Room committee—Will D. McKay,

Mrs. O. B. Conrad and E. M. Ayer.

Finance committee—G. G. Sutherland,

Mrs. S. O. Little, John M. Whitcomb.

Just now the finance committee is

more for ornament than for use.

There is very little money in the treas-

ury, and no prospect of any more until

this year's appropriations is received.

This will not be until next month.

AGAIN IN COURT.

The Stensrud divorce case brought

up to another form.

Judge Bennett will be once more

called upon to hear the testimony in the

divorce case of Maria L. Stensrud,

late against Joseph R. Stensrud.

The matter has been placed on the circuit

court calendar in another form.

This morning Judge Bennett heard

arguments in the matter of testimony. The

attorneys were Orlan H. Peters

and Mayor Wieman. [It was

finally ordered that Mrs. Stensrud be

given forty dollars a month, besides

seventy-five dollars set money. The

allowance will date back to the

beginning of the present suit.

WHAT TO WEAR.

"So you want to know what the fall

styles will be, do you?" said J. L. Ford

to a reporter this morning. "Well, some

of them will be much like last spring's.

Trousers are to be large and will be

furnished either with or without a narrow

welt. All coats will be made as soft

as possible as to roll free. For dress

there is quite a run on the single breasted

Princes Albert. Vests are to be cut

low with curved crease. In late the

favorite shapes will be considerably

lower. Except for this there is little

to be said, although business this fall

promises to be livelier than it has been

for some time."

Mr. Ford's stock of new goods showed

that his opinion was well backed. Custom-

ers had his store well visited and

never go away unsatisfied.

THOSE KANSAS CROPS.

TO THE EDITOR.

OSCAR LAKE, Iowa, August 22.—Pick-

ing up a scrap I article on Kansas crops a

few days ago, I saw I inadvertently added

one cipher too many to the bushels of

corn per inhabitant, for 14,000, or 14,233,

it should have been only 1,400. I did

not know of my mistake until I wrote. It

takes time to read over what I wrote. It

you print my article kindly correct, and

oblige.
